

CalvertHealth[™]
Sheldon E. Goldberg
Center for Breast Care

Dear Members of our Breast Care Group,

Last week initiated my retirement from Calvert Health Systems. It has been an honor to serve our patients, families, friends and neighbors for over 41 years.

I am very grateful for the privilege of being part of your breast care team. It has been my great joy to join you in working towards your highest level of well-being.

Wishing each of you and your families many blessings,

Ramona Couteau.

Dear Support Group Members,

We have prepared this letter to inform you of some transitions that are happening with the Sheldon E. Goldberg Center for Breast Care Support Group. Ramona Couteau, Breast Nurse Navigator has retired from CalvertHealth after 41 years of dedicated service. She has been a steadfast patient advocate throughout her tenure and has had a profound impact on many members of our community. We thank her for her service and wish her the best in her future plans. Her last day with the organization was October 5. She is greatly missed. While we are searching for the right person to fulfill the Breast Nurse Navigator role we will not be holding the Breast Center Support Group meetings the for the month of November 2018 through January 2019. During this time we will be sending out a survey to get your thoughts, ideas, and suggestions on what you like about the support group and how we can make it better. We thank you all, in advance,

for your support and understanding during this time of transition. We will be sending out the survey this month and we look forward to hearing from you.

Wishing everyone a safe and happy holiday season,

Christine M. Shipley, MSN, RN, OCN

Clinical Director
